Introduction

The following research report will illuminate the intentions, capabilities, actions and outcomes of various persons and parties who have conspired to create a condition to limit the ability for the country of Curacao to become a fully autonomous entity as a wholly sovereign country of the world separate entirely of the Dutch Netherlands government and kingdom.

The research report concentrates on various persons and parties that could have worked in concert to create ongoing public discontent, loss of life, loss of liberties and character assassinations by way of the propagation of private documents that were “leaked” and by way of false claims for the purpose of controlling the future outcome of the country of Curacao.

All information contained in this report has been collected via publicly available content residing on various Internet web sites and repositories.

The report is yet to be validated by a higher authority to determine the true source of the leaked private documents as well as other illegally obtained information and the persons who participated in the coup against the government of Curacao as it relates to the former Prime Minister Gerrit Schotte, Cicely van der Dijs and members of the Schotte cabinet.

The prosecution and opponents of Gerrit Schotte have created a situation where the public perspective would be negative towards Schotte and his cabinet which undermined Schotte’s abilities to affectively govern the newly formed entity. Critical questions about the entire conspiracy from the point of view of both camps have not been investigated satisfactorily with the care and dedication needed to maintain the national security of Curacao.

Critical questions such as:

- What was the succession plan to allow Curacao to become a fully autonomous country in the world stage?
- How and what was the process by which the Governor (Netherlands) would have cause to request an inquiry of conduct on the candidates and cabinet members?
- How was the custody of classified information handled by the parties responsible with the investigations? This questions the defined protocols and is related to the activities of all persons and agencies involved with this matter specifically and then also on a broader scale since the leaking of private or classified information may have been more prevalent prior to Mr. Schotte taking office.
- Who and how did any classified information leak from the offices of the Secret Service? As mentioned above there are clear and written protocols that failed when Mr. Schotte was coming into office and continued to fail after he was actively the Prime Minister of the newly formed country of Curacao.

Furthermore, as this has been an ongoing situation since 2010, and now six years later, custody of sensitive classified government and personal information regarding many persons within the Curacao political membership is still being leaked to the press. It would seem that the relationship between Dutch and Curacao Parliamentarians and the news syndicate of the Caribbean and Netherlands is causing disruption in order to maintain a higher level agenda.

Participants

The following persons have been identified as being party to the broader conspiracy to undermine the “voters” (the people of Curacao) who elected Gerrit Schotte as the first prime minister of the newly formed country of Curacao. Our discovery starts here and will continue till all active participants have been identified. We intend to show that these people could have participated in the scheme which followed the transitional government in which Curacao and its people have been materially harmed while the persons described here have materially benefited considerably by their actions.

Each profile will provide links and information obtained via general Internet searches. The point of this is to provide a persona profile that illuminates the intentions, capabilities, actions and outcomes of each person and collectively as a major conspiracy to suppress the forward progress of a people and a nation by persecuting those that would bring the wants and needs of the people of Curacao as their first priority above all others.

The participants described herein are not conclusive to the overall magnitude of the resources that have gone into the last six years’ worth of effort, time and money to undermine a prolific leader but also the people of a free nation.

Ms. Cramm has been openly against Schotte and his government. She has worked on the forefront and the shadows to advance the agenda to overthrow the newly formed government led by Gerrit Schotte and then on an ongoing basis to remove Schotte from politics entirely. Ms. Cramm had intention, she had motive, she had capability, she had resources and she acted upon each of these to not only accomplish overthrowing the government led by Schotte but also gained in monetary, lifestyle, access and influence beyond what she could achieve without carrying out the illegal actions to slander and besmirch targeted persons.

My last post
 Last Friday, I met a special person. A young man that I've been talking for hours, and where the conversation with me still worked for days and words to me aware that showed that after the many, many years have been enough. Enough because I'm in all my books have described very clearly what is wrong on this planet and put my energy into people that complain but do nothing to change.

We read every day about the mafia, a word that in 2010, was taboo and I publicly because I was convicted of lies. Now we see one after the other process, which confirms that the island is controlled by the mafia. We read about the dirty games that can be done with kids. By filthy cliques and a believe what drips from hypocrietie and lies. Even when I was in a pillory. We'll see how the judicial system is in the hands of the mafia. But also of the church, and in particular of the club that decide everything.

But last Friday, I received a reply on the whole, and that was what let me decide to have a revolution in my life to go. I read that this person, despite he was a prisoner was free and his freedom so polite and that makes me think what the current society does to me. Although they put me trapped in my house but also everything was taken from me. My children, I see no more, my "friends" are gone, and my first wife, together with my greatest support and died. I've only got about a person who loves me in the terrible years which were created by my identify and reporting of very many dirty cases. My honesty was rewarded with a guardianship and my life was systematically aborted.

Last Friday, this changed and I see now how pretty I am and what I can do without that I have to live as the system that wants. I step out of the system, I'll go my way, according to follow my philosophy and the energieniale life and hear there no facebook or newspapers in any more. I'm only going to talk to sign, sign, sign, and write with people who accept me as I am. And with this I'd like to talk to and fantasise about those experiences, which I have gained in life as the system charged to me. I keep my writing books from my faith and from my experiences in life.

This was the last post outside still general announcements of books, drawings and possibly lectures. Will further my blog " Watamula " daily updated. It's you all well and I keep hoping that with you, too, once the eyes are open.

Schotte en echtgenoot veroordeeld

Heer Schotte is veroordeeld hij 3 jaar gevangenis en zijn vrouw 18 maanden. Let wel het vonnis is niet direct uitvoerbaar!

Een proces wat een geweldige show was vol fouten en een lachertje voor die die weten wat er achter de deuren gebeurd.

Alles zal allemaal verworpen gaan worden in een hoger beroep of bij een Hoger gerecht. OM heeft te veel steken laten vallen en die zal advocaat Peterson gaan gebruiken. Zie een soortgelijke zaak van Elhage en Booi waar de maffia advocaat Knoops hun vrij kreeg en zelfs naam zuiverde.

Schotte kan lachen OM heeft zijn fouten gemaakt nu afwerken en aanpakken.

Editor in Chief of KKC-Curacao.com

Self-Employed

herders1948@gmail.com

Nicolaas Herders, also known by the alias "BlackLion" has been the Editor or Editor in Chief of the Knipsel Krant Curacao blogs, websites and other internet based properties of which he used to propagate the leaked documents of the MOT which were classified government documents. He also used these forums to release the illegally obtained personal banking information for Cicely van der Dijs.

Mr. Herders has made it his life's work to undermine Gerrit Schotte and all persons who support or follow Mr. Schotte and his organization MFK.

At one point in time during 2012 the web sites for KKCuracao had been taken offline by DDOS attacks and also by their provider. This caused Herders to recover whatever information he could from the old instance to then bring forward a new instance of the document repositories that contained illegally obtained leaked classified and personal information related to Mr. Schotte, Ms. van der Dijs and many others.

The KKCuracao brand has undergone many transitions by using many different forms of domain names and today is operating a successful business via KKC-Curacao.com.

Nicolaas Herders Het grootste deel krijg ik terug. Ben nu met een andere bezig. Gelukkig had ik een xml bestand gemaakt rond 14-06. Dus dat hele deel krijg ik terug. De rest is afwachten van die provider. Krijg ik mijn materiaal niet voor 10-7 dan krijgen ze oorlog. Momenteel liggen ze onder een Ddos attack. Servers kunnen de aanval niet aan. Nee ik

Mr. Herders had intention, he had motive, he had capability, he had resources and he acted upon each of these to not only accomplish overthrowing the government led by Schotte but also gained in monetary, lifestyle, access and influence beyond what he could achieve without carrying out the illegal actions to slander and besmirch targeted persons.

Roland Croes actively participated in the creation and testing of the initial Knipselkrant Curacao blog and forum websites. He is known to be active in subversive activities by befriending politicians and political groups in order to provide information back to the dark web syndicates related to KKCuracao and the conspiracy to undermine the newly formed government of 2010.

While Mr. Croes has been the only person to try to separate himself from the conspiracy when his name was identified as an accomplice to the slanderous and criminally obtained content which was published via KKCuracao sites, his name and digital fingerprint can not be removed from the sites that he participated in assisting to create.

In the screen capture below, it is visible to see the names of those that were testing the backend sites for knipselkrantcuracao.wordpress.com which is among the earlier manifestations of the publication. Since this version the names of contributors has been hidden.

Hubert Raper

Managing Director and owner of Hubrap Holding B.V. and Frederik Real Estate N.V.

Previously with Asogas Fuel Services B.V., Hubrap Holding BV / Frederik Real Estate NV, Family owned companies Frederik Mercantile Co. N.V. / Frederik Real Estate N.V., Intertrust Antilles N.V.

Although not conclusive of his direct actions, we find that Mr. Raper is associated directly with Paul Romeijn's IFusion ICT and the registration of several Internet domain properties. His interest would be against Ms. van der Dijs as it relates to the fuel distribution business on Curacao. It is also well known that Mr. Raper was against the Schotte government and was actively outspoken regarding the same.

Member of the Second Chamber of the Dutch Parliament

Formally with AIVD in the Netherlands

Mr. André Bosman along with Roland van Raak have used their status and influence within the Netherlands government to cause misinformation and doubts regarding the Schotte government. Using their political platforms and reach, Mr. Bosman continues to support and is an advocate for Nardy Cramm, Dick Drayer, Judith Roumou, Nicolaas Herders, Omayra Leeflang and other in the continued effort to undermine the ability for Curacao to become a fully autonomous country in the world stage separate from the Kingdom of the Netherlands.

Andre Bosman

Dus als een rechter opdracht geeft om een belangrijke politieke geldschieter, die 3 miljoen dollar heeft gedoneerd aan een partij, te onderzoeken in het kader van stemmenkoperij dan kost dat wat tijd ivm personeelsgebrek. Maar een kritische blogger die de regering en de staten scherp volgt daar is wel alle tijd en mankracht voor? Ik ga er van uit dat niets maar dan ook NIETS van de informatie die op de gegevensdragers van mevrouw **Judith R Roumou** verloren gaat of gewist wordt bij het teruggeven van deze dragers aan mevrouw Roumou!! Ik ga mij hier persoonlijk van op de hoogte stellen!!

Dutch Second Chamber and Member of Parliament Andre Bosman (VVD) reacted:

“So when a judge gives the task that an important party donor, who donated 3 million dollars, should be investigated for vote buying, that takes a lot of time because of personnel shortage. But a critical blogger who sharply follows government and state, there is enough time for that? I will assume that nothing and absolutely NOTHING will be lost or erased from her hardware when it is returned to her. I will personally see to it!!

Francesco Corallo

An Italian casino owner living in St. Martin. A man who likely has many relations with persons in the hospitality and gaming community. Mr. Corallo maintains a vast organization and enjoys the acquaintance of many persons both political and not.

Mr. Schotte at a point in time in his career was the General Manager for the Lido Hotel and Casino. Mr. Corallo maintained several casinos in Curacao.

It is hardly unimaginable that these two men would not know each other and have been seen in pictures in the media. The persons involved in the conspiracy to overthrow the Schotte government used every opportunity to smear both Corallo and Schotte in the media with repeated claims of illegal and mafia related activities.

To date no claim has been substantiated and or either party found with factual evidence to be part of any crime organization or syndicate.

Currently all court rulings have proven that Mr. Corallo has been cleared of any involvement in mafia related activities. Interpol has released him from their list of watched persons as it related to Anti Money Laundering and other crimes he was accused of.

Frits Goedgedrag

Former Governor of Curacao from 10-10-2010 to 10-24-2012.

Frits M. de los Santos Goedgedrag served as the first Governor of Curacao and submitted his resignation to Queen Beatrix on 24 October 2012 due to health related excuse.

From 1992 – 1998, he served as Lieutenant Governor of Bonaire and from 2002 – 2010 as the Governor of the Netherlands Antilles.

Frits requested the inquiry of conduct of all future cabinet members on 09/29/2010. The order was given to Edsel Gumbs to conduct investigations into the affairs and background of Schotte and other Curacao politicians with an illegal mandate.

Acting Governor of the Netherlands Antilles from October 10, 2010 to November 4, 2013 with Frits Goedgedrag being Governor.

As it relates to the conspiracy at large, there is little to no information online regarding her participation except the fact that she would have known and been party to the investigations against the newly formed government of Curacao. As her role in local affairs for the governorship of Curacao in relation to the Netherlands, it would seem her loyalties remained with the Netherlands and not the newly formed country of Curacao.

Ms. van der Pluijm-Vrede signed the mandate letter for Governor Frits in his absence as he was abroad at the time on September 29, 2010.

Dick Piar

Retired Attorney General

Dick Piar has been the Attorney General in Curacao from 2002 to his present retirement.

There has not been any investigation regarding the leak VDC documents of which Mr. Piar could have had access to via Edsel Gumbs and his VDC staff. Furthermore, the breach in process regarding Anti Money Laundering (AML) and other related agency procedures should have been investigated by Mr. Piar or at the least sincerely questioning to ensure the validity and integrity of the evidence being put forward against Mr. Schotte and Ms. van der Dijs.

Mr. Piar was the recipient of the “anonymously” obtained documents showing van der Dijs private bank statements on October 20, 2012. These records were obtained by way of illegal entry into the banking system of Citibank. Dick Piar received the details of the van der Dijs account on a Saturday following the start of the smear campaign on October 19, 2012.

Edsel Gumbs

Policy Advisor at Central Bank of Curacao and Sint Maarten

Former Chief of the VDC (Curacao)

Former Chief Director Security Service Netherlands Antilles

Former Chief Inspector Police Force Netherlands Antilles

Mr. Gumbs has a Bachelor's degree in Police Management from the Nederlandse Politie Academie 1997 – 2001

Gumbs created an environment of mistrust when acting on the orders of the then Governor Frits to conduct safety background checks on ministers within the newly forming government of Curacao. Edsel continued this work despite the declaration by Schotte that Mr. Gumbs had breached the new country's national security laws and that Schotte as Prime Minister had lost faith and trust with Mr. Gumbs.

PM Schotte removed Gumbs from office and a four-year battle to clear himself ensued. Currently Gumbs is working at the Central Bank of Curacao and Sint Maarten as a Policy Advisor.

Schotte maintained there were also insider dealing between Central Bank Head Tromp and the investigations conducted by Gumbs.

Mr. Gumbs personally handled a case for David Dick (PAR) where he made "mistakes" to free David and absolve him of the accusations against him. Later David Dick as the Minister of Justice made Mr. Gumbs the Chief of the VNA.

Curaleaks also known as Ban Drecha Korsou Awo

Curaleaks and the CuraLeaks Crew are currently and have been abusing social media to claim responsibility along with the group Ban Drecha Korsou Awo for leaking sensitive, classified and personal information. This group of unknown persons act as if they are like the group Anonymous and also strive to create a legacy similar to WikiLeaks.

Although these groups claim responsibility, following the path of information architectures in the online space, we find that the Curaleaks platform in particular its curaleaks.org website did not originate the leaked documents since the documents in question were available via Knipsel Krant Curacao prior to the registration of the curaleaks.org domain.

The group utilizes every means possible to continue to propagate misinformation and should be considered a threat to the national security of Curacao.

Conclusion

In this discovery we can bring forward the notion that the ingredients and recipe for the coup to overthrow and then continue to subvert the governance of Curacao as an autonomous country within the world stage was in fact perpetrated by a wide spread initiative with support from the Government of the Netherlands, local Curacao politicians and political groups, as well as local and foreign secret service and law enforcement agencies.

It is our determination that a full scale examination into the conduct of the Governors office and the Secret Service of both the Netherlands and Curacao should immediately commence by a higher authority.

Furthermore, the Office of the Attorney General should be scrutinized for the use third party investigators and for false allegations and claims which have cause irreparable harm to the targeted persons related to Gerrit Schotte's Prime Ministership.

The predominant outcome of the actions and impact of the participants of the conspiracy will be yet to be determined unless the wrongs conducted by elected officials can be at last known in truth and reality.
