

Complete aircraft register of Aruba (P4-) from 1988 onwards.

NOTE: this information has no official status. Sources at bottom of this page.

Database compiled by Arno Landewers (email: alandewers@gmail.com)
last update: 06Mar2022

Record format:

Registration marking aircraft type aircraft construction number
Previous registration marks
Event descriptions

Date format: dd.mm.yyyy (day (2 digits), month (2 digits), year (4 digits))
Date 00.00.0000 indicates that the date is not known, and for instance the
format 00.04.2004
indicates April 2004 (so day not known).
A registration mark between brackets () indicates that the registration
mark was not taken up.

Used abbreviations:

b/u: broken up.
cld: registration cancelled.
CoA: certificate of airworthiness.
c/s: color scheme.
dbf: destroyed by fire.
dbr: damaged beyond repair.
frd: ferried.
lsd: leased.
MLG: Main Landing Gear.
opf: operations for.
rgd: registered.
tls: titles.
wfu: withdrawn from use.
w/o: written-off.

UAE: United Arab Emirates
UK: United Kingdom
US: United States
